

“Get Ready for tomorrow. Today”

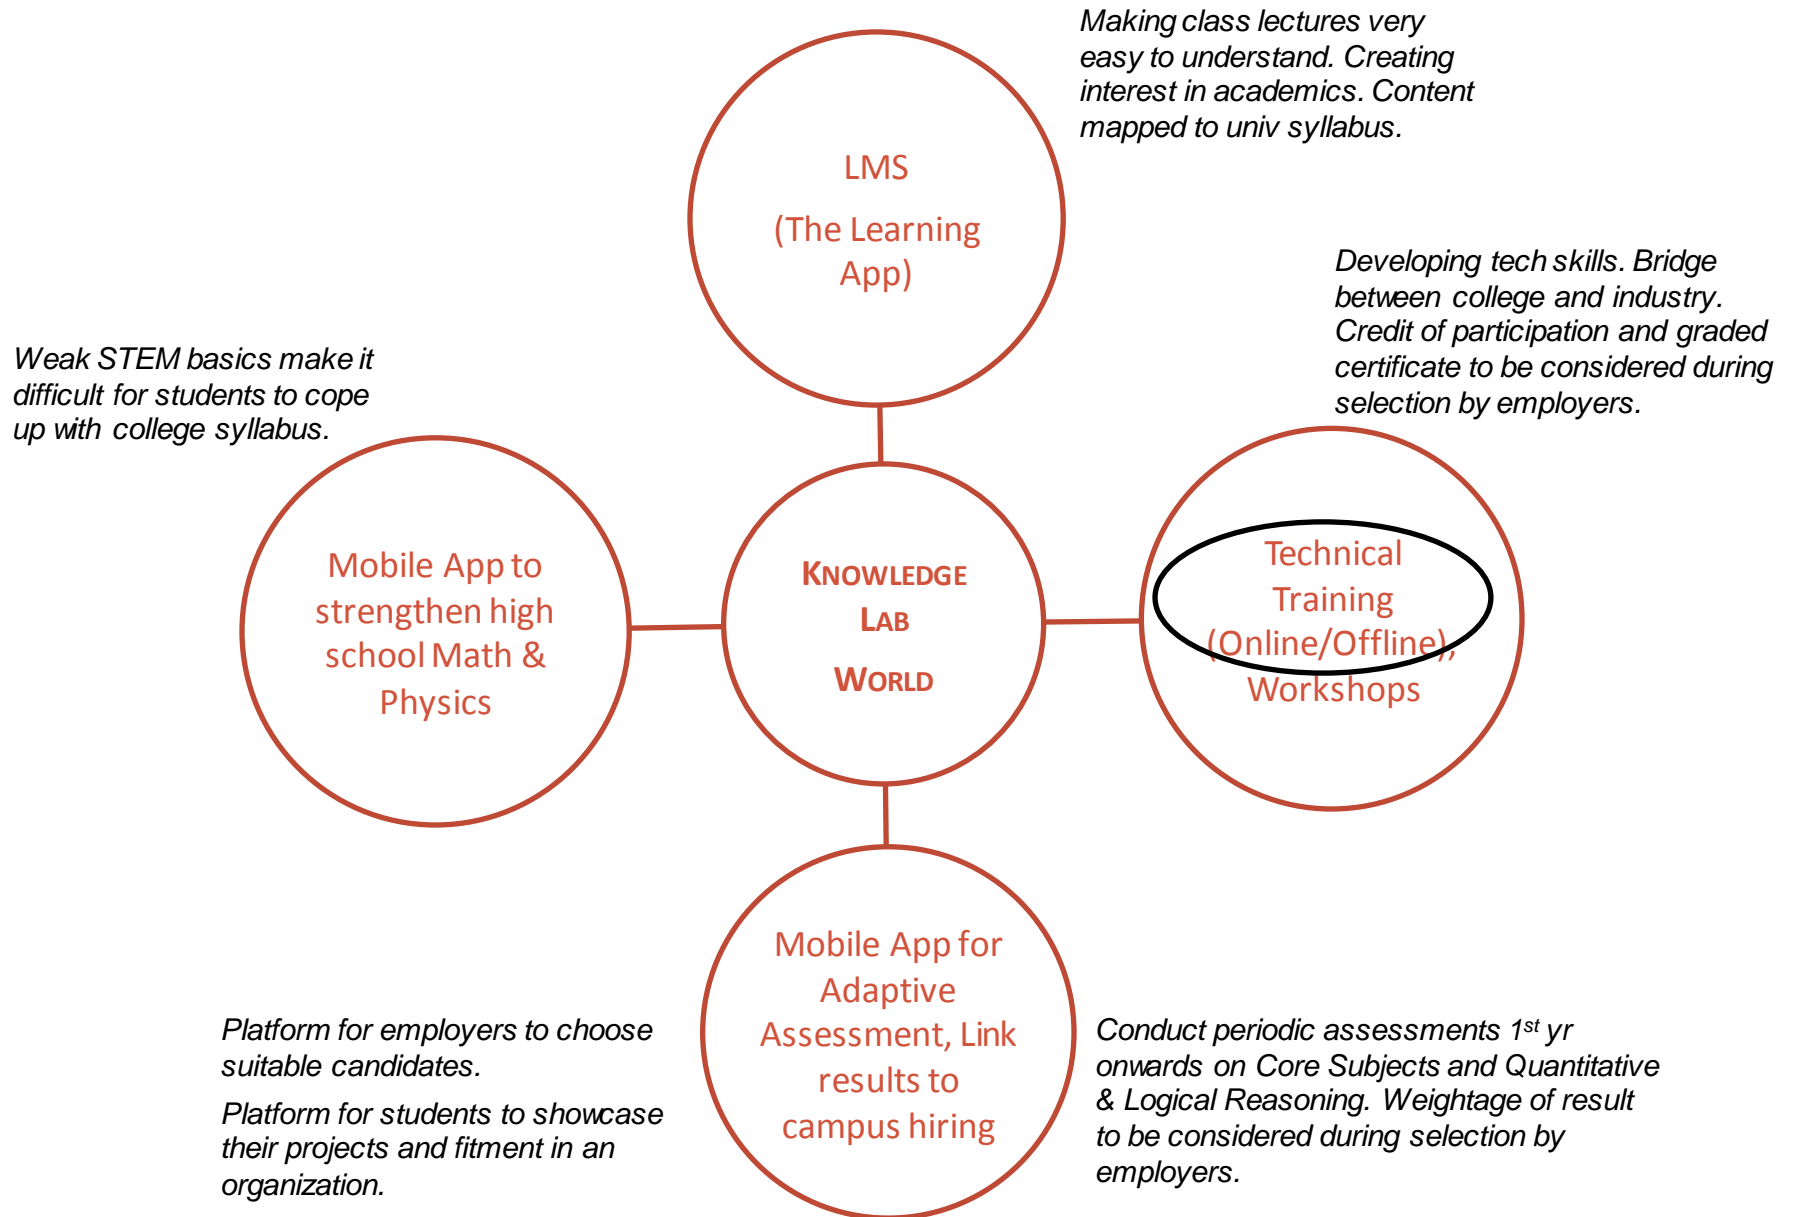

Discover joy of engineering. Apply your knowledge.

Incubated @ STEP IIT (Kgp)

**Welcome to the students of  
Haldia Institute of Technology  
to the *Big Data Training Program***

# LEARNING ECOSYSTEM

# Meet your Guru

Amrit  
Chhetri

## Training Areas

BigData, Python, Hadoop

Data Analysis with SPSS

Smart Office and E-data Management

Penetration Testing with Python

Android App Development

Ethical Hacking and Cyber Forensics

Recently completed training on Big Data at SMIT

## Notable Achievements

Designed Business Analytics for LG

Designed BI System for GE Healthcare, HSBC

Best practices of BI System for Keane, Disney

Solaris Penetration Testing

Certified Android Developer

Certified Information Security Specialist

Certified Penetration Tester

Author: Computer Forensics Practical Guide -

Investigating Computer Attacks

Detailed Profile

# Let's get to know each other

Every 2 days we create as much information as we did from the beginning of time until 2003.

Over 90% of all the data in the world was created in the past 2 years.

Every minute we send 204 million emails, generate 1.8 million FB likes, send 278,000 tweets & upload 200,000 photos to FB.

Google processes on average 40,000 search queries per second, making it over 3.5 billion in a single day.

Around 100 hours of video are uploaded to YouTube every minute. It would take 15 years to watch every video uploaded in 1 day.

570 new websites spring into existence every minute.

1.9 million IT jobs  
have been created  
to carry out big  
data projects.

Amount of data  
transferred over  
mobile networks  
increased to 1.5  
billion GB. Video is  
53% of that total.

Value of Hadoop  
market shall soar  
from \$2 billion  
today to \$50 billion  
by 2020.

Boom of Internet  
of Things means  
that the number of  
devices connected  
to the internet will  
rise from 13 billion  
today to 50 billion  
in 2020.

Analysis of Big  
Data is required  
everywhere.  
Healthcare, crime,  
retail, space, oil &  
gas, telecom...

Da

# Analyze

# Big Data using Hadoop, Hive, Hbase, Pig & Spark

*Python Programming Fundamentals*

*Python Database Programming*

*Python Web Data Programming*

*Python File Handling*

*Introduction to BigData*

*Hadoop Introduction*

*Hadoop File System- HDFS*

*Introduction to MapReduce*

*Working with HDFS*

*BigData Programming Platforms*

*Hive- Metadata Services*

*Pig- BigData Scripting*

*HBase- Data Warehouse System*

*Spark- In-Memory Analytics*

*Python Programming for Data Analytics*

*BigData Security and Administration*

*BigData Advanced Analytics*

*Project Allocation and Monitoring*

## Learning Outcomes

Understand the Role of BigData and BigData Analytics in today's world

Acquire knowledge to design and develop BigData Solution

Differentiate Real-Time Querying and Historical Data Analysis

Generate visualization for BigData using Python, Java, Scala, Spark and BIRT

Ability to understand and work with advanced data processing – Deep Learning, Machine Learning, AI

What are your expectations from the program?

# Class Rules

Are you  
adults?

Or, are  
you  
children?

# Class Rules

Training dates: 5 Jul to 22 Jul, 2016

Training days: Mon to Sat

Timing: 10.00 am to 2.00 pm

Break: 12.00 pm for 10 minutes

Attendance shall be taken at 10.20 am and 12.30 pm

90% attendance compulsory

Well groomed and smartly dressed in the classroom

Mobiles silent/switched off and on the table in front of you

Misbehaviour with your teacher or other students shall lead to disciplinary action

# Project Evaluation Guidelines

*Your project shall be evaluated on the last day of the training*

**QUIZ (3)**                      **6 + 12 + 12**                      **30 marks**

**PRESENTATION**        **10 + 15**                      **25 marks**

- Time duration is 15 minutes, including Q&A by panelists
- Marks shall be given on you confidence, ability to explain the project, response to questions by panelists and your communication skills
- Clarity, Coding Standard & Innovation

**DOCUMENTATION – SRS, FDS**                      **25 marks**

- Format: Aesthetics & layout, same font and size on all pages (except codes), new topic from new page, etc
- Flowcharts, Screenshots of data, application with proper headings
- Correctness of data, especially technical details
- Cover page must have the name of the project, your name, stream and roll no

**ATTENDANCE**                      **10 marks**

**GROOMING & BEHAVIOUR**                      **10 marks**

OUR BIG DATA  
ANALYSIS TELLS US  
THAT ONLY THE TOP  
PERFORMERS LEAVE  
FOR HIGHER PAY.

Dilbert.com DilbertCartoonist@gmail.com

SINCE YOU'RE STILL  
HERE, IT MEANS YOUR  
PERFORMANCE IS  
AVERAGE AT BEST.

1-27-14 ©2014 Scott Adams, Inc./Dist. by Universal Uclick

**THAT'S  
NOT  
FAIR!**

THAT'S  
WHAT ALL  
THE AVERAGE  
PEOPLE SAY.

# Good Luck

# For Trainer

Get venue details from HIT

- Make learning fun.
- Use humor.
- Good clean format of slides
- Encourage participation.
- Build self-esteem of the participants
- Start simple, ensure your delegates are comfortable and then logically build up to the more complex stuff.
- Have team building game
- Summarize each session. Start next session with a recap
- Form groups...give a name to each group
- Take a picture of the whole class...then groups
